LIMITATIONS & NOTICES

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

The contaminants or other substances removed or reduced by this water filter are not necessarily in all users' water.

Filter life is dependent on actual use and incoming water quality.

Replace the filter cartridge at the required interval, at the rated capacity, or sooner if a noticeable reduction in water flow occurs.

Flush the new cartridge/system as directed before use.

The warranty does not cover damage caused by incorrect installation, operation outside the stated limits, water hammer or freezing, missed cartridge replacements, or unauthorised modification or repair.
