

# SUPERPURE Easy-Fit Sediment External Fridge Filter

EFSF

DWT-DS-C-023  
Rev 0  
Issued 2026-08-24

Refrigerator water filter

## AT A GLANCE

- A particle-only external filter that traps dirt, rust and sand before they cloud your water or clog your fridge's water system.
- It won't change the taste — pair it with a carbon filter for that.
- Best for: Water with visible grit, rust or cloudiness.

## SPECIFICATIONS

|                                |                                                                                                 |
|--------------------------------|-------------------------------------------------------------------------------------------------|
| Rated service flow             | 1.9 L/min (0.5 gpm) — T33-class inline rating                                                   |
| Operating pressure             | Up to 6 bar (600 kPa); fit a pressure regulator where supply pressure exceeds 4.5 bar (450 kPa) |
| Connections                    | 1/4"                                                                                            |
| Replacement element & interval | Fridge filter: every 180 days → Same product                                                    |
| Country of origin              | China (PRC)                                                                                     |
| Warranty                       | 12 months (consumables excluded — see Warranty & support)                                       |

## FEED WATER

|             |                                |
|-------------|--------------------------------|
| Supply type | Municipal (disinfected) supply |
|-------------|--------------------------------|

For use on municipal water supplies. Not suitable for untreated borehole, rain or surface water without appropriate pre-treatment and disinfection.

## WHAT IT REDUCES

Chlorine, taste and odour for better-tasting water and clearer ice.

**Not designed to reduce:** TDS, fluoride, nitrates, bacteria.

## LIMITATIONS & NOTICES

Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

The contaminants or other substances removed or reduced by this water filter are not necessarily in all users' water.

Filter life is dependent on actual use and incoming water quality.

Replace the filter cartridge at the required interval, at the rated capacity, or sooner if a noticeable reduction in water flow occurs.

Flush the new cartridge/system as directed before use.

## WARRANTY & SUPPORT

12 months from date of purchase. Consumables are excluded: filter cartridges, UV lamps, quartz sleeves and O-rings. The warranty does not cover damage caused by incorrect installation, operation outside the stated limits, water hammer or

freezing, missed cartridge replacements, or unauthorised modification or repair.
